

# Flashcards App Powered by Alexa

Kavya Kushnoor  
Capstone Final Defense - MS (CSIS)  
University of North Carolina Wilmington

---

**Advisor:**

Dr. Curry Guinn

**Committee Members:**

Dr. Ellie Ebrahimi

Dr. Judith Gebauer

# Objectives

**1**

Create an application powered by Alexa which enables a user to practice Flashcards

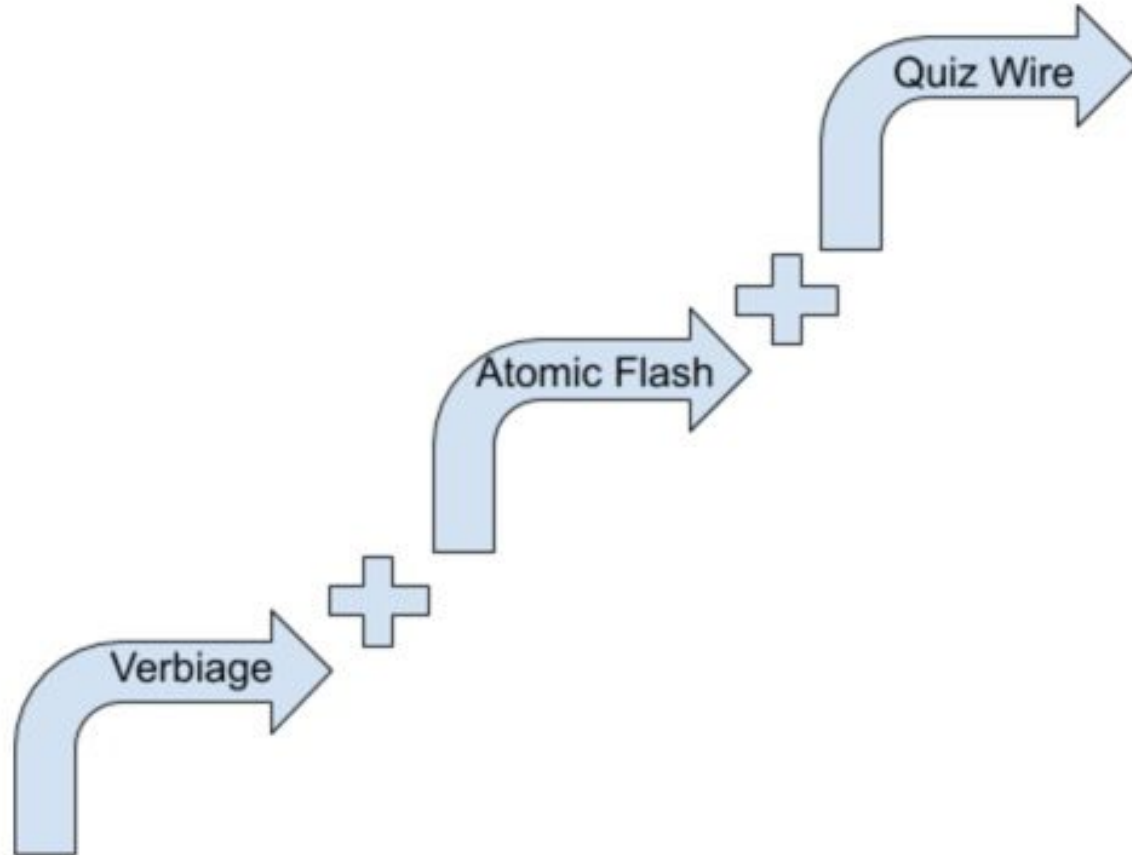

**2**

Create prototype of app that enables a user to create flashcards on a web-browser and make it available for customized practice using Alexa's Voice Interface

**3**

Make Alexa flashcards accessible to one or more users.

# Progress

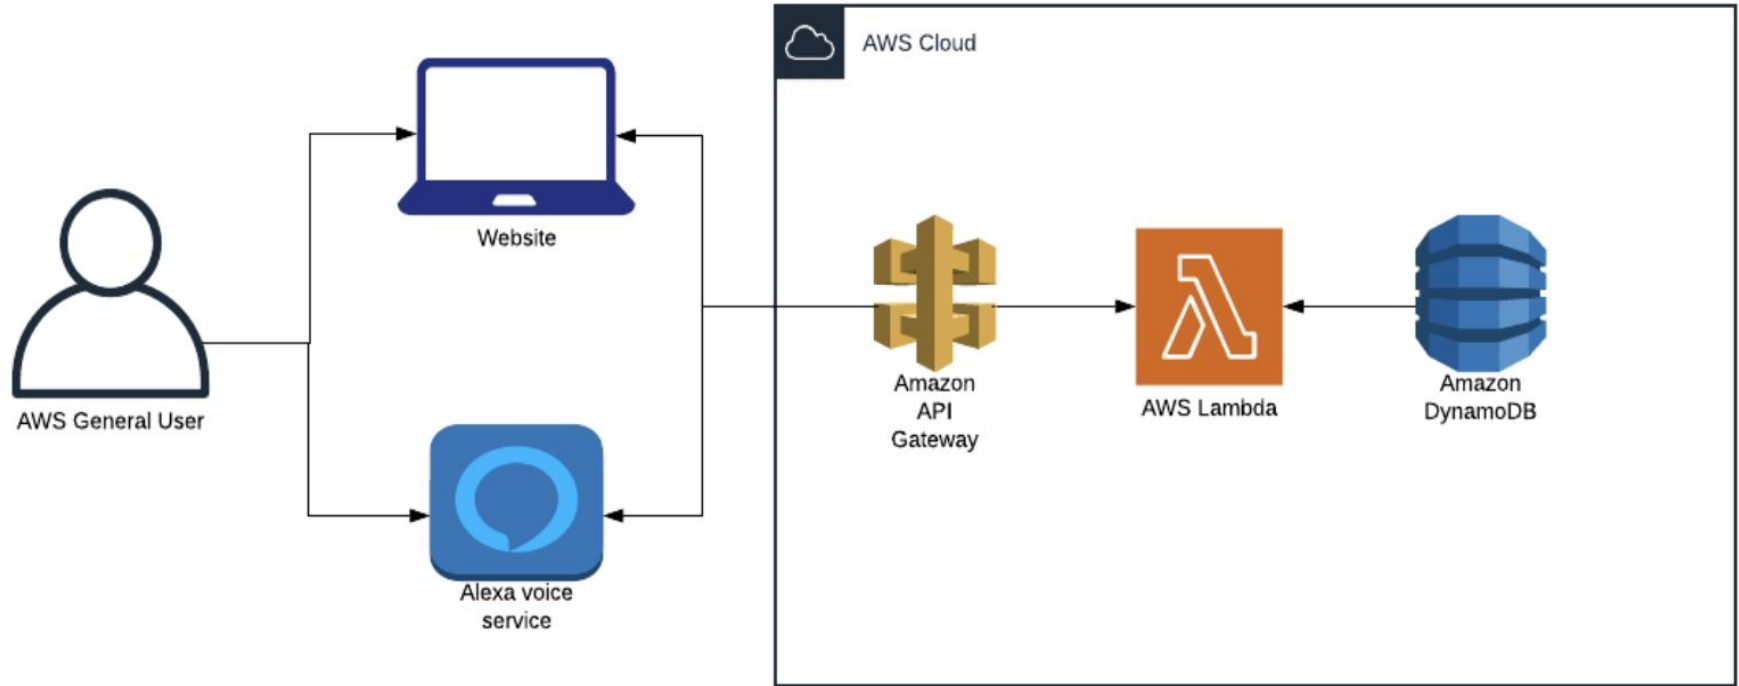

# Project Features

## Resources:

- Alexa Skills Kit 
  - AWS Lambda 
  - DynamoDB 
  - API Gateway 
  - IAM 
  - ReactJS Web UI 
-

# Implementation

# Functions Connected with API Methods

# Demo of Quiz-Wire

—

# Intended Conversation Model

**Alexa: Welcome to Quizwire! Let's begin practice. Are you ready? To begin say 'yes' or 'start'.**

**User: Yes/ start**

**Alexa: Here is your first question. {Question}?**

**User: {Correct Answer}**

**OR**

**{Wrong Answer}**

**Alexa: Correct Answer.**

**OR**

**Wrong answer. The correct answer is: {Correct Answer}**

**User: Stop**

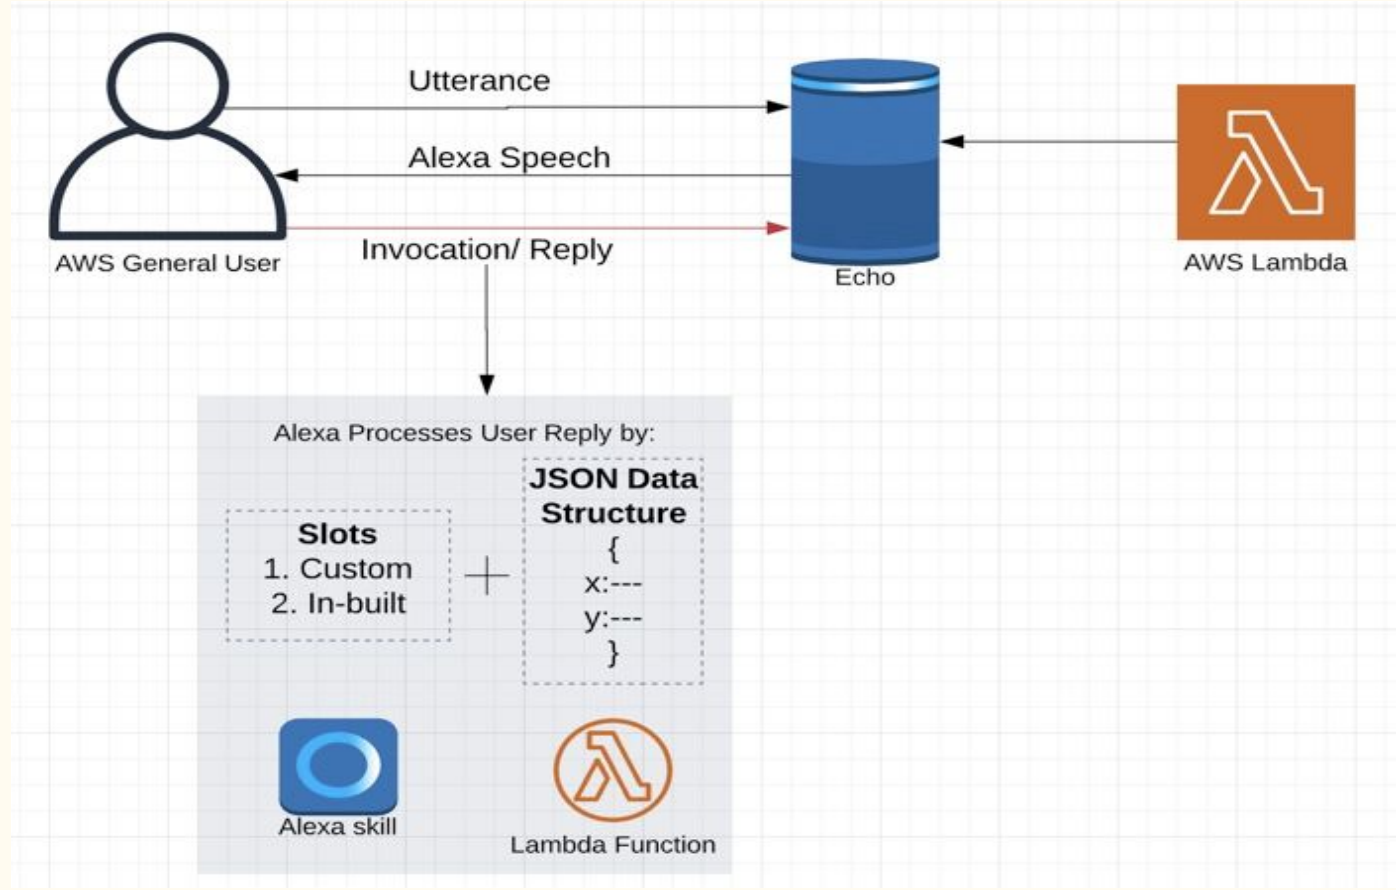

**Alexa: Sure, have a good day!**

# Challenges in Quiz Wire

—

# Challenge-1 in Quiz-Wire

# Challenge 2 - AWS Lambda Blueprint Changed

- Tutorials, blogs, articles used the Alexa Factskill blueprint.
- It has now moved to the ‘Serverless App Repository’
- Deployment method has changed drastically

# Create function

## Author from scratch

Start with a simple "hello world" example.

## Blueprints

Choose a preconfigured template as a starting point for your Lambda function.

## Serverless Application Repository

Find and deploy serverless apps published by developers, companies, and partners on AWS.

## Applications (332)

Search applications by name, description, or labels

Sort by Best Match

< 1 2 3 4 5 6 7 ... 28 >

### alexa-skills-kit-nodejs-factskill

This Alexa sample skill is a template for a basic fact skill. Provided a list of interesting facts about a topic, Alexa will select a fact at random and tell it to the user when the skill is invoked.

skills fact alexa

Alexa Skills Kit

10.7K deployments

### alexa-skills-kit-nodejs-triviaskill

This Alexa sample skill is a template for a trivia style game with score keeping. Alexa will ask you a multiple choice questions and seek your response. Correct and Incorrect answers to questions are recorded.

skill trivia alexa

Alexa Skills Kit

981 deployments

### SecretsManagerRDSMySQLRotationSingleUser

Conducts an AWS SecretsManager secret rotation for RDS MySQL using the single user rotation scheme

AWS Secrets Manager

970 deployments

## Select blueprint

Configure triggers

Configure function

Review

## Select blueprint

Blueprints are sample configurations of event sources and Lambda functions. Choose a blueprint that best aligns with your desired scenario and customize as needed, or skip this step if you want to author a Lambda function and configure an event source separately. Except where otherwise noted, blueprints are licensed under [CC0](#).

Welcome to AWS Lambda! You can get started on creating your first Lambda function by choosing one of the blueprints below.

Select runtime

# Next Steps

1. Improvise the website's user-interface and HCI component in such a way that it explains the usage instructions better. The design of the UI can be made more visually appealing too.
2. Improvise the Voice UI to make it more conversational. This can be done by making the flashcards more interactive. Removing the 'number' slot and finding a better solution to the slots challenge would be a good solution.
3. Deploy the final application developed.
